**Spotlight: GaMEP**

“Georgia Tech was created in part to take what we learn on campus and move it into the marketplace. We provide people and expertise that make our world better. It’s part of our historical mission, and that hasn’t changed since the Institute opened its doors in 1888. One way we extend that mission is through the Georgia Manufacturing Extension Partnership, or GaMEP, for a look at some of the untold heroes of Georgia manufacturing and the important role they play in our state. In mid-January we will launch GaMEP’s “Heroes of Manufacturing,” an online showcase that will feature a different “hero” every month.”
